Newsletter MAY 2024

WELCOME TO OUR NEWSLETTER! WE ARE THRILLED TO SHARE THE LATEST NEWS FROM IN-VENTECH.

Batch#6 portfolio companies

We're happy to have this companies on board. Stay tuned!

BATCH#6 IS OFFICIALY LAUNCHED

Last Month, after a strict selection process of 200 applications, 10 new ventures joined the IN-VENTech startup business program.

We thank all applicants and we're excited to introduce the selected ventures:

<u>MealaFood</u>, <u>Exosomm</u>, <u>VH2O</u>, <u>Calodar</u>, <u>Canotera</u>, <u>Endocure</u>, <u>Libba</u>, <u>Kikfin</u>, <u>Novodia</u>, <u>Engini</u>.

SPECIALIZES IN INNOVATION LEADING CLUSTERS

The variety of the portfolio companies created clusters addressing similar market segments such as Digital Health, Medical Devices, Space, BlueTech, and ConTech.

The purpose of the clusters is to enable the sharing of resources and connections between entrepreneurs from the same field to overcome significant challenges while creating new business opportunities.

One of our main tools for collaboration is our CEO's roundtable taking place every few months. These brainstorming events have been proven to contribute and promote venture growth.

With Batch #6 opened in March 2024, a new cluster of Food technologies was formed.

WHY FOODTECH AND WHY NOW?

In recent years, awareness of healthy nutrition has been growing and there is a noticeable growth in the number of startups in this field. Israel is a world leader in advanced food technologies and vegetable protein substitutes.

Due to the situation in the north of Israel where many food technology companies are located, we received many applications to support the growing need for a new home for this sector.

IN-VENTech decided to step in with a new cluster of food technologies to create a significant presence of functional food technologies in Haifa.

<u>IN-VENTech</u> is a unique startup program backed by Haifa Municipality, hiCenter, and Haifa Economic Corporation. The program was designed to support and promote the growing innovation ecosystem in downtown Haifa.
